PROJECTS

1. **Quiz App**
 - Developed a quiz app using Flutter and Dart, allowing users to answer multiple-choice questions, track their scores, and view results.
 - Implemented user authentication and data storage using Firebase.
 - Designed and implemented a clean and intuitive user interface with smooth animations and transitions.
2. **Expense Planner**
 - Created an expense planner app using Flutter and Dart, enabling users to track their expenses, set budgets, and view expense reports.
 - Implemented local data persistence using SQLite for offline functionality.
 - Integrated charts and graphs to visualize expense data for better user experience.
